SAGAR GUPTA

Govindpuri, Kalkaji, New Delhi • 8809197377 • sagarkshn8@gmail.com • https://sagargupta.tech/

Software Developer & Web Developer

Detail-oriented Software Developer proficient in modern web and software technologies including JavaScript, React.js, Node.js, and MongoDB. Demonstrated success delivering robust projects such as full-stack e-commerce platforms and interactive games. Strong problem-solving skills, effective team collaboration, and adherence to agile methodologies. Eager to leverage academic knowledge and hands-on experience to solve real-world challenges in a dynamic development team.

WORK EXPERIENCE

Kamyab Infotech PVT LTD   **09/2025 - Present**
Web Developer   **Delhi**

As a Web Developer Intern, I contributed to the development, automation, and optimization of various web platforms and tools. My role involved building and maintaining websites, integrating AI-powered automation, and enhancing user experiences across multiple technologies.

kartBuddy   **06/2025 - 08/2025**
Full Stack Developer - Internship   **Remote**

- Performs both frontend and backend development tasks, with a strong focus on seamless API integration.
- Implements version control using Git and contributes to team collaboration through GitHub workflows.

EDUCATION

Bachelor Of Computer Applications
Shankara Institute of Information Technology   Rajasthan, India • 07/2022 - 06/2025

PROJECTS

Car-Game
Created a browser-based car game using HTML, CSS, and JavaScript. Playable on PC with smooth controls, engaging gameplay, and responsive design.

Virtual Assistant
Built a voice-activated virtual assistant using Python that delivers news headlines, plays songs on Spotify, opens websites, and provides real-time weather forecasts using API integrations.

Shopping Website (MERN)
Developed a full-stack e-commerce platform using MongoDB, Express.js, React, and Node.js with user and admin panels. Admin panel enables efficient management of products, orders, and users.

BharatAi
BharatAI is an advanced AI-powered web application similar to ChatGPT, built using **Next.js**. The platform enables users to **chat with an intelligent assistant**, **analyze images**, and **generate AI-based images** from text prompts. It combines natural language processing and computer vision to deliver smart, interactive responses and visual outputs in real time.

SKILLS

Bootstrap, C++, DSA (Problem Solving), Express.js, Git, GitHub, JavaScript, MongoDB, n8n, Next.js, Node.js, Python, React.js, TypeScript(TSX)
